

CLARK COUNTY, NEVADA – COUNTY CODE

Chapter 8.65 - Retail Marijuana Establishments

Sections:

8.65.005 - Findings.

On November 8, 2016, in the interest of public health and public safety, and in order to better focus state and local law enforcement resources on crimes involving violence and personal property, the people of the State of Nevada approved ballot question #2 legalizing the use of marijuana for persons twenty one years of age or older, and providing that its cultivation and sale should be regulated similar to other legal businesses. Ballot question #2 is codified in Nevada Revised Statute 453D ("NRS 453D") and directs the Nevada State Department of Taxation ("DOT") will promulgate regulations within Nevada Administration Code 453D ("NAC 453D") for the operation of marijuana establishments.

Regulated marijuana establishments include marijuana cultivation facilities, marijuana testing facilities, marijuana product manufacturing facilities, marijuana distributors, and retail marijuana stores. For the first eighteen months after DOT begins to accept applications for marijuana establishments, DOT can only accept license applications for retail marijuana stores, marijuana product manufacturing facilities, and marijuana cultivation facilities from persons holding a medical marijuana establishment registration certificate.

Similarly, for the first eighteen months from the date DOT begins to accept applications for marijuana establishments, DOT can only issue marijuana distributor licenses to persons holding a Nevada wholesale liquor dealers' license, unless DOT determines an insufficient number of marijuana distributors will result from this limitation pursuant to NRS 453D.210(3). On March 28, 2017, DOT, finding that an insufficient number of marijuana distributors will result from marijuana distributorship licenses to only Nevada licensed wholesale liquor dealers, will consider applications for marijuana distributors from medical marijuana establishments holding a medical marijuana registration certificate in good standing and applicants currently in the business of transporting medical marijuana and whose employees hold valid agent cards pursuant to NRS 453A.332.

In a memo, dated August 29, 2013, from Deputy Attorney General James M. Cole to all United States attorneys ("the Cole memo"), guidance is provided regarding marijuana enforcement. The Cole memo outlines the following eight enforcement priorities that are of particular importance to the federal government:

- (a) Preventing the distribution of marijuana to minors;
- (b) Preventing revenue from the sale of marijuana from going to criminal enterprises, gangs, and cartels;
- (c) Preventing the diversion of marijuana from states where it is legal under state law in some form to other states;
- (d) Preventing state-authorized marijuana activity from being used as a cover or pretext for the trafficking of other illegal drugs or other illegal activity;

- (e) Preventing violence and the use of firearms in the cultivation and distribution of marijuana;
- (f) Preventing drugged driving and the exacerbation of other adverse public health consequences associated with marijuana use;
- (g) Preventing the growing of marijuana on public lands and the attendant public safety and environmental dangers posed by marijuana production on public lands; and
- (h) Preventing marijuana possession or use on federal property.

In the Cole memo, there is an expectation that states and local governments will implement strong and effective regulatory and enforcement systems that will address any threat to public safety, public health, and other law enforcement interests. Such systems must contain robust written controls and procedures that are effective in practice. Jurisdictions that have implemented strong and effective regulatory and enforcement systems to control the cultivation, distribution, sale, and possession of marijuana and conduct in compliance with those laws and regulations are less likely to threaten the federal priorities. A robust system may affirmatively address those priorities by, for example, implementing effective measures to prevent diversion of marijuana outside of the regulated system and to other states, prohibiting access to marijuana by minors and replacing an illicit marijuana trade that funds criminal enterprises with a tightly regulated market which tracks and accounts for revenues. It is the board of county commissioners' intent to provide such a strong and effective regulatory and enforcement system to control the cultivation, distribution, sale and possession of marijuana and to be cognizant of the eight enforcement priorities in the Cole memo.

It is found and declared that the public health, safety and welfare of the inhabitants of the unincorporated areas of the county, require the regulation and control of all persons engaged in, associated with, or in control of, the business of retail marijuana establishments. All such persons, as defined in this chapter, shall be licensed and regulated so as to protect the public health, safety and general welfare of the inhabitants of the unincorporated areas of the county and to safeguard the public. It is further found and declared that the right to obtain such a license is a privilege and that the operation of such a retail marijuana establishment, when authorized by such license, is a privileged business subject to regulations, and that the license may be revoked for violation of the conditions of this chapter. In the event of a conflict with any of the provisions contained in any applicable chapter of Title 6 or 7 of the Clark County Code, the provisions of this chapter shall be controlling.
