AB81

Makes various changes relating to the oversight and provision of legal representation of indigent defendants in criminal cases.

Cmtee on  
Judic.

Monitor,  
PRIORITY

RIGHT TO COUNSEL COMMISSION - Indigent defense reform bill - includes a section about legislative intent including that: the Legislature must ensure that adequate funding is made available to ensure adequate indigent defense. A new State Dept is formed as well as a Board of Indigent Defense Services. The Board is 13 members, 7 of those are chosen by counties/will be county appointees. Three candidates for the position of ED of the Department shall be chosen by the Board, then the Governor shall make the final selection. The ED reports to the Board and assists the Board, but serves at the pleasure of the Governor. The State PD is moved into the Department. The Board must set minimum standards for indigent defense delivery in the State; the Board is also responsible for creating guidelines for max caseloads; monitoring of attorneys; and working with UNLV Law to provide incentives and programs for new attys to serve as PDs, especially in the rurals. Everything that the Board approves by regulation will have to have final approval by the Legislative Commission - at that point it would then be codified in Nevada Administrative Code. The Board shall also establish a cap for the maximum amount a county must be required to pay, either to meet the new standards established, or to pay the state if they use the State PD, this also requires approval by Legislative Commission. Staff in the new department shall oversee ID statewide including collecting info on caseloads and contract PDs and will conduct on-site visits. If the Dept Deputy Director determines that a county is not meeting the standards set by Board - then staff shall work with the county commission to create a corrective action plan, and shall assist the county with the plan, including quantifying costs for implementing the plan. The Department and the county must 'collaborate' on the plan. If the plan requires the county to spend more money than was budgeted the previous year plus inflation, then the Dept ED must include that amount in the Dept's budget for the following biennium, to pay the increase in costs for the county. If the Legislature does not approve the budget, including the additional money for the county, then the county may transfer their indigent defense services to the State or keep them and the amount that the state can charge back to the county for that service is also subject to the Board established cap on what counties can pay. Ultimately, if the county does not comply w the State standards that the Board sets, the ED may recommend to the board that the county be required to transfer responsibility to the State. Any transfer must also be approved by the Board and the Board's decision is final.

Signed  
by  
Gov.

AB82

Revises provisions relating to elections.

Cmtee on  
Leg. Op's &  
Elec.

PRIORITY,  
Support

NACO Bill - Update to primary system, reverting back the system to how it was conducted prior to a change in 2015. Prior to the passage of SB 499 (2015) if there were candidates of only one major party on the ballot the primary was carried out as follows: if there were two nominees from that party, both would advance to the general election; if there were more than two nominees from that party than either the top two vote getters would advance to the general, or, if one candidate received more than 50% of the vote then only that person would advance to the general. SB 499 changed the law so that, now, if a major political party has two or more candidates file for an office, and no candidates file from any other party, then the single top vote getter from the primary always advances to the general, thus deciding the race in the primary. AB 82 would return Nevada to the primary system in place prior to 2015, so that, if candidates from only one party have filed, general election voters decide the outcome of the election.
