February 18, 2014

Dear County Commissioners and Staffs,

The Nevada Commission on Aging (Commission) invites you to participate in an informative discussion on aging in Nevada. This "call to action" which is being supported by the Nevada Association of Counties is to address the urgent needs of seniors for today and into the future. The video/teleconference will take place March 21, 2014 from 9:00 to 10:30 a.m.

As the population of seniors surge in Nevada, both state and county governments will need to be prepared for assisting individuals in their home community. Participant outcomes include the following:

- Learn the demographics of seniors in Nevada by county
- Be aware of current programs and funding streams supporting senior programs
- Understand the changes in federal funding - sequestration
- Discussion regarding need based services
- Collaboration opportunities/plan of action

The Commission is committed to improving the lives of seniors and to ensuring quality services are available for seniors to age in their own communities with their family and friends. As the population increases, it will be imperative that we work together to address the challenging issues related to aging such as caregiver needs, healthcare, workforce, and transportation.

NACO is working with the University of Nevada Cooperative Extension to set up video-conference locations around the State. Teleconference will also be available. Please RSVP to emonroy@nvnaco.org by February 28th if you will be able to participate so we can plan accordingly. Also, feel free to contact NACO or myself if you need additional information.

Please join the conversation and be part of the solution!

Sincerely,

A handwritten signature in cursive script that reads "Jane Gruner".
