7. **Discussion and Approval of a Formula for Distributing \$8,000,000 to Counties to Use to Offset their Nonfederal Share of Expenditures for Long-Term Care Pursuant to the State Plan for Medicaid.** Dagny referenced the document included in the agenda packet. She explained that the first distribution formulas was determined by the percentage of assessments to each county as per the NRS and applied the same percentages to the \$8M set aside. The second formula for the Board to consider included the amount that each county provides to the Fund and a distribution by county based on that percentage. She noted that a decision on the distribution needs to be made for 2021 during the meeting. Chair French noted that the intent was to reimburse counties based on the amount of their assessment and that he feels that the distribution needs to be based most closely on the NRS, but county needs based on assessment need to be considered. Commissioner Shank agreed to Chair French's comments as did Vice Chair Sharkozy. It was also noted that the distribution formula could be changed in the future, at the beginning of a cycle. Commissioner Jones also noted that he felt the most equitable distribution method for FY20/21 was the formula based on the amount of the individual county assessments. The distribution formula based upon the percentage each county pays for the total statewide assessment was approved unanimously on a motion Carol, second Sharkozy.
8. **Discussion of Future Agenda Items and Future IAF Meeting Dates.** Dagny suggested that the Board would not need to make any decisions prior to the fall and to allow staff to determine the need for a meeting and reach out to the Board to determine the next meeting date. Dagny's suggestion was approved by consensus.
9. **Public Comment.** Jeff Fontaine inquired as to the distribution and wanted to clarify that the distribution of the funds associated under item 7 were credits and if they could be attributed to previous years assessments. Dagny said that they would be credited in FY21 and I got completely lost.

The meeting was adjourned at 1:24 pm.
